

Let Revolution Start

Let revolution start
Let it begin with me
You're the King of my heart
And You have set me free
I want to shout it out
I want the whole world to see Your love

From the moment time began
You had a purpose
You had a plan
You hold my future in Your hands
And I believe it's true

You reached out and You rescued me
You gave me love for the world to see
And what I do and the words I speak
I belong to You

It's simply amazing
The way that You save me
I want the world to know

Let revolution start
Let it begin with me
You're the King of my heart
And You have set me free
I want to shout it out
I want the whole world to see Your love

With every step I take
With every breath I breathe
I want the world to know
How much You mean to me
I want to shout it out
I want the whole world to see Your love

Revolution
(revolution)
Revolution
(revolution)
You put Your love in my heart
I'll show the world who You are
Revolution
(revolution)

It's simply amazing
The way that You save me
I want the world to know

Let revolution start
Let it begin with me
You're the King of my heart
And You have set me free
I want to shout it out
I want the whole world to see Your love

With every step I take
With every breath I breathe
I want the world to know
How much You mean to me
I want to shout it out
I want the whole world to see Your love

Let revolution start
Let it begin with me
You're the King of my heart
And You have set me free
I want to shout it out
I want the whole world to see Your love

With every step I take
With every breath I breathe
I want the world to know
How much You mean to me
I want to shout it out
I want the whole world to see Your love

I want to shout it out
I want the whole world to see Your love
